

Serial No. 09/611,955
Art Unit: 2811

IN THE DRAWINGS:

As a possible alternative to the proposed drawing correction filed on/about October 19, 2001, please consider the proposed alternative drawing correction as set forth in the attached Letter to the Official Draftsman.

REMARKS

Applicant hereby incorporates in its entirety the Amendment After Final Rejection filed on/about March 28, 2002.

In addition, Applicant proposes an alternative drawing correction in lieu of the drawing correction filed on/about October 19, 2001. If the Examiner approves of the alternative drawing correction, the Examiner may cancel Applicant's proposed drawing correction filed on/about October 19, 2001.

As shown in the attached alternative drawing correction, Applicant merely adds "SUBSTRATE 13" to each of Figures 1 - 7 for clarity. Applicant used copies of informal drawings believed filed with the parent application serial number 09/009,824, now US Patent 6,140,234.

Entry of this Amendment, approval of the instant alternative drawing correction (07/16/2002) or the proposed drawing correction (10/19/2001), and allowance of claims 25-32 are respectfully solicited.
